Dear No Coal / No-Fossil Fuel Activists,

The coal profiteers are ramping up their campaign to poison Oakland using an advertisement that's attached below.

This poorly produced propaganda from the coal terminal developer's henchmen, Terminal Logistics Solutions (TLS), exposes their false messaging.

They've included a doctored photo of a "hundred car train" with "covers". There are no hundred car trains with covers.

We also have artist's rendering of their supposed "state of the art" covered facility. Yet the two pictures do not match.

And their lies in the text are unbelievable.

These coal marauders are powerful adversaries due to their millions of dollars. We'll have to redouble our efforts to protect the health and safety of our town and our people.

In Solidarity,
Michael Kaufman
